

2. Write a multiplication equation and a division equation to find the unknown side length for each rectangle.

**Lesson 8:** Find the area of a rectangle through multiplication of the side lengths.

3. On the grid below, draw a rectangle that has an area of 32 square centimeters. Label the side lengths.

4. Patricia draws a rectangle that has side lengths of 4 centimeters and 9 centimeters. What is the area of the rectangle? Explain how you found your answer.

5. Charles draws a rectangle with a side length of 9 inches and an area of 27 square inches. What is the other side length? How do you know?
